

Online Data Cleaning & Enhancement

Blue Tahiti's online Bureau Suite allows data owners to provide their customers with online data cleaning, de-duplication and enhancement. Using the latest technology, Blue Tahiti has been able to achieve highly accurate matching techniques that allow database owners to enhance a customer's file more accurately and efficiently.

Blue Tahiti's online bureau suite is simple to use, user friendly and fast. Simply upload a file to cleanse and enhance, confirm the fields to be mapped and a PDF audit report is available to download within minutes.

Once an audit report has been produced users can simply select which variables they would like to append and download their enhanced file within seconds.

Blue Tahiti Bureau Suite includes:

- Online De-duplication
- Data Cleansing & Suppression (PAF, TPS, MPS, FPS etc)
- Data Enhancement
- Custom Data Audit Reports

Enterprise Version:

As with all Blue Tahiti products, our Bureau suite can be online within as little as 4-6 weeks, completely white-labelled and branded to your business, allowing you to generate additional revenue through your data. All of our reports are completely customised for each of our clients to ensure that your brand identity is retained.

The enterprise version of our Bureau Suite can either be used internally or can be provided as an online product to your customers, allowing them to cleanse and enhance their data online 24/7.

Product Features
